1. Which publishers have a title (or titles) that deals with legal issues and libraries? Titles and imprint dates, please.

The American Library Association has titles that are devoted to or include sections on legal issues and libraries. The available titles include:

The book will be published by ALA Editions in the Fall of 2012.

Copyright Law for Librarians and Educators: Creative Strategies and Practical Solutions, Third Edition by Kenneth D. Crews

Scarecrow Press also publishes books related to library science. Some titles are:

2. Which have a title or titles on global warming aimed at the lay person? Titles and imprint dates, please.

HarperCollins Publishers have books on global warming:

(This book is for children.)

Random House, Inc has one book on global warming that I could find. It is:

Global Warming for Beginners by Dean Goodwin “Published by: For Beginners” December 30, 2008

3. Which have titles on building a post and beam home? Titles and imprints, please.

Schiffer Books has books about post and beam homes. Some are:

Post & Beam Dreams by Lisa Glennon, Holly Ostrander, and Tony Hanslin
According to Amazon.com this book was published by “Schiffer Publishing (May 28, 2011)”.

Barn Style Living: Design and Plan Inspiration for Timber Frame Homes by Tina Skinner and Tony Hanslin

The publisher is Schiffer. According to Amazon.com it was published on December 31, 2006. (I found the books listed at the Schiffer Publishing website, but they do not list dates or imprints for their books.)

Schiffer Publishing (2007). Schiffer Books. Retrieved from:

Amazon.com Inc. (1996-2012). Amazon. Retrieved from: <http://www.amazon.com/>

I have been unable to find another publisher’s site for books about “post and beam houses.” I know that a publisher named Storey used to publish a book on that topic because the book was for sale at Amazon.com. When I went to the publisher’s website I found that they no longer sold the book. There were several publishers listed at AcqWeb that sounding like they might publish books on that topic. However, none of the links worked suggesting that they no longer exist.
